Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1, 7, 12, and 17, line 1, "the eye" lacks antecedent basis.

In claims 1, 7, and 17, line 7, "the gripped side" lacks antecedent basis.

In claims 2, 13, and 18, line 2, “the user’s thumb and finger” lacks antecedent basis.

In claim 12, line 6, “the opposing free side”, and “the instrument”, are without proper antecedent basis. At line 12, “the second free side” lacks antecedent basis.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shoup (4,123,098).

Shoup teaches a contact lens placement instrument. The reference also teaches in placing the soft contact lens on a person's eye, the insertion device 10 is also held with one hand around the flexible bulb 12 and the bulb 12 is squeezed slightly to provide suction to grip the back surface portion of the soft contact lens which is usually picked off a person's hand after rinsing with a saline solution. The reference discloses the placement instrument as claimed. The reference also teaches releasing the contact lens with a puff of air as claimed. See figs. 1-4, col. 2, line 38-col. 4, line 26, and the claims.

The reference does not teach the dipping steps as claimed.

It would have been obvious for one skilled in the art to use the step of dipping the contact lens in the cleaning solution before placing said contact lens in the eye because it is well known in the art. See col. 4, lines 17-19. It would have been obvious for one skilled in the art to use the step of dipping the contact lens in cleaning solution repeatedly to enhance the cleaning and because it is well known in the art. The contact lens as claimed is well known in the art.
